FANØ, DANMARKS VESTLIGSTE Ø

En ferie på øen i Vesterhavet er oplevelse, afslapning og velvære, Fanøs fortid som søfartsø kan stadig opleves gennem en spadseretur i havnebyerne Nordby og Sønderho. Den afvekslende natur byder på vadehav, klitter, plantager og hede.

Fanøs 18 km hvide børnevenlige sandstrand på vestsiden af øen er for mange indbegrebet af dansk sommer med sol, saltvand og frisk havluft. For andre er det enten den velplejede natur og det rige fugleliv, der trækker, eller de hyggelige bymiljøer med deres smalle gader og karakteristiske huse.

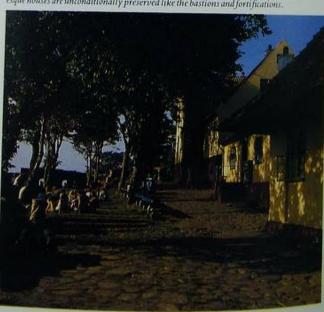

CHRISTIANSØ, DANMARKSØSTLIGSTEØ

Ude i horisonten mod øst, ca 1 times sejlads fra Bornholm, ligger Ertholmene, en lille malerisk øgruppe. De to hovedøer Christiansø og Frederiksø er beboede (ca 120 indbyggere) Øerne, der danner en naturlig havn, blev i 1684 gjort til fæstning og flådebase.

I midten af sidste århundrede var rollen som fæstning og flådebase udspillet, men Fyret fra 1805 og havnens betydning for skibsfarten har sammen med en del fiskeri kunnet brødføde den lille befolkning. Alle bygninger, mure og bastioner samt hele områdets natur er fredet og udgør en stor attraktion for såvel lystsejlere som endagsturister.

Fano byder udover dejlige badestrande og klitter også på afvekslende natur med plantager og hedeland. In addition to beautiful heaches and dunes, Fano also offers a varied landscape with plantations and moorland.

 $All e de maleriske huse er lige som bastioner og fæstning sanlæg total fredet. \cdot All the picturesque houses are unconditionally preserved like the bastions and fortifications.$
