Miniature sheet \$3 and border
'Scrambled Eggs' Cassia surattensis (inscribed 'Egges' in error)

Tuvalu fulfils the classic image of a south seas paradise. Visitors come to the islands to enjoy the peaceful atmosphere and palm-fringed beaches. Pandanus, papaya, banana, breadfruit, coconut palms and various other fruits and colorful flowers are typical. The climate is humid and hot with a mean annual temperature of 30°C (86°F) and comparatively little variation. The average rainfall is about 300mm annually.
