SAFETY AT SEA

Maritime safety goes far beyond the technical matters relating to shipping and to efficient navigation. It entails, above all, protecting lives at sea, as well as controlling the often disastrous effects of marine pollution.

ILO - Turin Centre

For the past twenty years, the ILO Turin Centre, through its wide range of professional, technical and technological resources, has lent significant support to the efforts of developing countries to advance along the path of social and economic progress. These stamps are a fitting commemoration of that achievement.

Immunize every child!

Childhood immunization gives lifetime protection against infectious diseases. The most ambitious goal yet of the World Health Organization and of UNICEF is to immunize all of the world's children by 1990 against measles, diphtheria, whooping cough, tuberculosis, polio and tetanus that are still taking a heavy toll of life.

WORLD FEDERATION OF UNITED NATIONS ASSOCIATIONS

The World Federation of United Nations Associations (WFUNA) has an important role to play in support of the work of the United Nations. The thousands of individuals from United Nations Associations (UNAs) and, indeed, from other non-governmental organizations around the world, who work voluntarily to promote the purposes and principles enshrined in the UN Charter, could be described as the incarnation of the compelling declaration with which the Preamble to the United Nations Charter begins: "We the peoples of the United Nations"

I commend WFUNA and its member UNAs for the valuable contribution they have made during the past fifty years as well as the contributions of all other non-governmental organizations in mobilizing popular support for the work and goals of the United Nations. Together, we will dedicate the next half century to a new collective effort in favour of peace, development and democracy.
